## **CSR SPEND BY NSE-LISTED COMPANIES JUMPS 23 PER CENT TO ₹22,212 CRORE IN 2024-25: primeinfobase**

Corporate Social Responsibility (CSR) spend by companies listed on NSE main board rose by a huge 23 per cent to ₹22,212 crore in 2024-25, in comparison to ₹18,011 crore spent in 2023-24, according to primeinfobase.com, an initiative of PRIME Database Group. According to Pranav Haldea, Managing Director, PRIME Database Group, this was due to an astounding 22 per cent rise in average net profit (of the preceding 3 years) of these companies, 2 per cent of which needs to be spent on CSR activities as per regulatory requirements.

The 23 per cent increase in CSR spends follows an impressive 16 per cent increase seen in 2023-24, which was after 4 year of flattish spends, from ₹14,776 crore in 2019-20 to just ₹15,561 crore in 2022-23.

The CSR law, which came into force in April 2014, mandates companies, subject to the provisions of the Act, to invest two per cent of their net profit in CSR projects. Companies with net worth of ₹500 crore and above or revenue of ₹1,000 crore and above or net profit of ₹5 crore and above have to spend two per cent of average net profits of last three years. **According to Haldea, it is encouraging to note that the Government is now considering his oft-advocated suggestion of revising these thresholds upwards, given the passage of time and “ease of doing business”.** Relatively smaller companies should be kept out of the purview of this regulation, which was the original intent as well.

According to primeinfobase.com, 2,142 companies were listed on NSE main board as on March 31, 2025. Of these 2,142 companies, annual reports for 2024-25 have been released by 2,081 companies. Of these 2,081 companies, 2,066 had details relating to CSR given in the annual reports, while no such details were available for the balance 15. Finally, of the 2,066 companies, 1,549 were obligated to spend on CSR, up from 1,399 companies in 2023-24. **This analysis is based on these 1,549 companies.**

According to primeinfobase.com, the average net profit of these 1,549 companies over last three years was ₹11.76 lakh crore, up from ₹9.64 lakh crore in 2023-24. **As per CSR requirements, the amount required to be spent by them was ₹22,732 crore (2023-24: ₹18,351 crore), against which they spent a slightly lower ₹22,212 crore (2023-24: ₹18,011 crore).** According to Haldea, the shortfall can be explained by the increase in amount which remained unspent which was transferred by companies to Unspent CSR Account (₹3,223 crore) for use in future years.

**On the other hand, there were 315 companies which missed the mandatory spending of two per cent of net profit (258 in 2023-24).** This was primarily due to companies undertaking multi-year projects and thus transferring the unspent amount to their ‘Unspent CSR Account’ for utilisation in the next three financial years. In case the amount remains unspent even after the end of the three financial years, it needs to be transferred to any fund specified under the CSR Act such as PM National Relief fund, PM CARES fund etc.

**PSU spending saw an increase of 19 per cent from previous year.** 71 PSUs spent ₹4,791 crore in 2024-25, up from ₹3,717 crore spent by 67 PSUs in 2023-24.

The CSR Act also mandates companies to appoint a CSR committee comprising at least three members of the board of which at least one should be independent, in case the CSR spend is more than ₹50 lakh. **While 1,162 companies spent more than ₹50 lakh, 1,102 companies had such a CSR committee in place.** Several companies also went beyond the requirement of having 3 members with as many as 520 companies appointing more than 3 members.

### **Impact Assessment**

As per revised provisions of the Companies Act, companies which have an average CSR spend of more than ₹10 crore in the last three financial years need to mandatorily carry out impact assessment by an independent agency of such projects where the outlay is more than ₹1 crore and which have completed a one year period. The top 10 companies in terms of amount spent on Impact Assessment were as follows:

### Direct Spends vs using Implementing Agencies

26 per cent of the companies (139 companies) spent only directly on CSR-related activities, 35 per cent used an external Implementing Agency while 37 per cent used a combination of the two. The balance 2 per cent did not specify the route chosen by them.

However, in terms of amount spent, the maximum amount was spent directly (₹1,211 crore or 47 per cent of the total ₹2,585 crore for which project details are available).

	No.of Cos.	%age of Cos.	Amount Spent (₹crore)	%age of Amount Spent
DIRECT	139	26.18	1,210.91	46.85
IMPLEMENTING AGENCY	186	35.03	948.73	36.71
BOTH	197	37.10	278.30	10.77
NOT SPECIFIED	9	1.69	146.60	5.67
<b>TOTAL</b>	<b>531</b>	<b>100.00</b>	<b>2,584.54</b>	<b>100.00</b>

**Notes:**

1. For the same activity, there could be an overlap between the different schedules. For e.g., skill development for women can be classified under employment enhancing vocational skills (Schedule VII (ii)) as well as under promoting gender equality (Schedule VII (iii)).
2. Amount spent in multiple states has been equally divided between the states given. If a state/location has not been provided in the disclosure, then the amount has been equally divided amongst all states in India.
3. For standardizing the data across different financial years/accounting periods of companies, figures for years other than an 'April-March' Financial Year have been adjusted on a pro-rata basis till 2019/2019-20. For e.g. data for calendar year 2019 (viz. January-December 2019) has been taken 3 months into 2018-19 and 9 months into 2019-20. From 2020/2020-21 onwards, data for a calendar year is shown under the subsequent financial year. For e.g. data of companies having calendar 2020 (viz. January-December 2020) is shown under FY 2020-21.
4. Schedule-wise amounts spent have been prorated equally for companies where break up between Direct and Implementing Agency has not been given in the Annual Report.
5. Where amount spent does not fall under any of the prescribed schedules or no details of activity have been provided, the amount has been equally split across all schedules.
6. Where schedule-wise spends have not been provided, the total amount has been equally divided across all schedules.
